EDUCATION

Shri Ramdeobaba College of Engineering and Management **Nagpur, India**

B. Tech, Information Technology **From :January 2020, To: June 2024**

CGPA: 9.31/10

INTERNSHIPS / EXPERIENCE

1. SECURITY DELIVERY ASSOCIATE - certificate **March 2024 – June 2024**

Organization Name: Accenture **Location: Bengaluru**

- Mastered advanced **Privileged Access Management (PAM)** techniques using the **CyberArk** tool, achieving a **post-assessment score of 34/40.**
- Engineered and secured privileged accounts, ensuring **100% isolation** and **real-time monitoring** for enhanced organizational security.
- Optimized installation and configuration workflows for CyberArk, improving system performance and efficiency.

2. Software Developer - Intern **January 2024 – April 2024**

Organization Name: Hakxcore **Location: Remote**

- **Developed and integrated secure authentication flows** using **Next.js** with **React-based UIs** connected to **RESTful APIs**, fortifying user data protection,
- **Enhanced website performance** through optimized database queries, boosting response times and user experience.
- Collaborated across multiple teams to deliver scalable web solutions and support cloud integrations, showcasing technical versatility.

3. STUDENT INTERN - certificate **June 2023 – August 2023**

Organization Name: Persistent System **Location: Remote**

- Built a solid foundation in **Data Structures & Algorithms**, achieving a **score of 25/30** during the intensive Martian Summer Internship Program.
- Demonstrated exceptional Java programming skills, **scoring 108/120,** by delivering robust and efficient software solutions**.**
- Created optimized logic to handle complex problem scenarios, emphasizing analytical thinking.

4. TEACHING ASSISTANT (Part Time) - certificate **September 2022 – January 2023**

Organization Name: Coding Ninjas **Location: Remote**

- Led **120+ interactive sessions** to resolve coding doubts, elevating student comprehension and course satisfaction (average rating: **4.93/5.00**).
- **Debugged 1,200+ codebases efficiently**, helping students identify critical issues and develop robust solutions.
- Provided constructive feedback on over 50 assignments and projects, ensuring adherence to best practices in programming.

PROJECTS

Hash Generator

- A React application that can generate hash value using selected hash algorithm (example: SHA-1,SHA-256, MD5) for given stream of data.
- Tech. Used: React, HTML, CSS, JavaScript.

Kanban Board Link: https://kanban-board-177bf.web.app/

- Developed task management system in React with real-time updates and backend integration via RESTful APIs.
- Tech. Used: React, Redux, HTML, CSS, JavaScript.

CERTIFICATES

- **AWS Fundamentals** Link: certificate
  Score: 92.70% Issued by: Coursera on Dec 4, 2022
- **Cisco NDG Linux Essential** Link: certificate
  Score: 81.34% Issued by: Cisco Network Academy on July 28, 2024

TECHNICAL SKILLS

- **Programming Language:** Java (Proficient), Python, C++ .
- **Frameworks/Libraries:** React, Next.js, Redux, Spring (Familiar).
- **Tools:** Git, VS Code.
- **Web Technologies:** RESTful Web Services, HTML, CSS, JavaScript.
- **Other Technical Skills:** Cloud Computing, Linux.
- **Databases:** Oracle SQL, MongoDB, Firestore.

SOFT SKILLS

- **Problem-solving** and **analytical reasoning**.
- Proficient in **team collaboration**, **effective communication**, and **mentoring**.

ACHIEVEMENTS

- **98.38 percentile** in MHT CET, awarded a scholarship under the **Tuition Fee Waiver Scheme (TFWS)**.
- Secured **3rd place** in a coding contest by the Technical Club of RCOEM.
- Awarded a **scholarship of ₹10,000** for maintaining a **9.31 CGPA**.
- Solved **1,750+ problems on Code360** and **100+ problems on LeetCode**.

CODING PROFILES

- LeetCode Current Rating: 1534
- CodeForces Contest Rating: 0352
- Code360 Contest Rating 1687
